

CSCI 5437 Assignment 5 (Programming Project)

Due: 3/3/2023

Write a Java program to display a rotating eagle. Use the provided *Eagle.java* for drawing the path of the eagle. Set up a circular clipping path for the logo and fill the background with proper colors. Animate the rotation with a *Timer* object. Allow the user to stop and resume the animation by clicking the mouse on the panel. When the button “Save image” is clicked, a snapshot of current drawing will be captured and saved to a file named “*eagle.png*”.

Name the main class *Assignment5* in the package *assignment5*. Submit the source files online to *folio*.
